PRECISION TRAINING INSTRUMENTS

SR3600

POINT & SHOOT

The Most Versatile, Cost Effective Radar System Available

The SR3600 Radar Gun is a **precision training instrument** for coaches, players and enthusiasts. Read accurate ball and swing speeds for various sports, including but not limited to: baseball, softball, tennis, bowling, golf, auto racing, and more. The SR3600 is full featured, reliable, durable and easy to use. **Just point and pull the trigger and the target speed is displayed.** Our advanced microprocessor based speed detection calculates speeds in just a few feet of target travel.

Sports Radar is the pioneer of the **Hands Free Mode** which allows an individual to read the speed of various targets for training purposes without another person being present. Our **Data Port** is a feature not found on any other radar gun in this class. The Data Port enables the use of our large displays for remote viewing or for connection to a PC/Laptop for statistics tracking. **The SR3600 is the best price/performance radar gun available.**

Optional Display
