(Also available in Red or Yellow.)

***Sports Radar Offers a Full Line of Displays Compatible with Our Radar Guns***

Sports Radar displays are a valuable complement to our radar guns for continuous unattended operation, solo practice, and competitions. Displays allow the MPH or Km/H speed to be viewed from a distance so they are perfect for fast pitch competitions, tennis courts, auto races, and other multiple viewer events.

Sports Radar displays feature large bright digits using either LCD or bright LED technology. All displays can be powered by either batteries or an optional AC adapter. Optional stands and wall-mount brackets are available.

**DL834**

### → DS400BL

The DS400BL is a backlight LCD speed display with three 4" tall digits. This display is typically visible up to 200 feet away. The low power requirements make the DS400BL a great choice where battery operation is required. Switch on the backlight for great visibility, even at night.

### → DL431

The DL431 is a high bright LED speed display with three 4" tall digits. This display is best suited for indoor or shaded areas and is visible up to 200 feet away. The wide viewing angle of this display allows great view coverage for fans and participants to see real-time speeds.

DL431  
available in  
yellow, red, or  
green.

### → DL834

The DL834 is an ultra bright LED display with three 8" tall digits. This display works very well indoors or outdoors. With an extremely wide viewing angle, it can be seen up to 350 feet away. The DL834 has 4 multi-ports which allows for up to four radar guns to be used simultaneously. That way two guns at each end of a court or rink can accurately display speeds at a central location. The DL834 includes an AC adapter.

### All Displays Feature:

- ⊙ Optional AC adapter (included with DL834)
- ⊙ Tripod Mount

1 Year Limited Warranty
