

Know the Difference: SRDL-36-KIT vs. SRDL-38-KIT

When choosing a Sports Radar Speed Gun Package, selecting the right kit for your specific application is key to getting accurate results and maximum value.

SRDL-36-KIT — Perfect for Indoor & Inflatable Game Use

- **Designed for Indoor Settings:** Ideal for indoor sports facilities, recreational centers, and controlled environments.
 - **Optimized for Inflatable Games & Carnival Speed Pitch:** Works seamlessly with inflatables and other indoor setups without false readings or interference.
 - **Range:** Effective detection up to **60 feet** for balls and **250 feet** for vehicles.
 - **Visibility:** Comes with the DL431 Display Board with three 4" digits visible up to 200 feet — perfect for sideline viewing or event booths.
 - **Applications:** Tennis, baseball, soccer, indoor recreational activities, inflatable games, and carnival speed pitch.
-

SRDL-38-KIT — Built for Outdoor & Long-Range Performance

- **Designed for Outdoor Use:** Tailored for open fields, stadiums, race tracks, and outdoor sports where longer distances need to be tracked.
 - **Not Compatible with Inflatables:** Outdoor operation and longer detection range means the radar may produce inaccurate readings with inflatable targets or in tight indoor spaces.
 - **Range:** Extended detection range of **150 feet** for balls and **1,500 feet** for vehicles.
 - **Display:** Comes with the DL431 Display Board with three 4" digits visible up to 200 feet — perfect for sideline viewing or event booths.
 - **Applications:** Baseball fields, outdoor soccer, Lacrosse, Wiffle Ball, Tennis, motorsports, and other sporting events, Homeowners Associations (HOAs) & Private Communities.
-

Choosing the Right Kit

Feature	SRDL-36-KIT (Indoor/Inflatable)	SRDL-38-KIT (Outdoor/Long Range)
Best Environment	Indoor, Inflatable Games, Carnivals	Outdoor fields, race tracks
Maximum Ball Range	Up to 60 ft	150+ ft
Maximum Vehicle Range	Up to 250 ft	500+ ft
Display	DL431 4" LED Display (visible to 200 ft)	Larger LED Display (visible at longer distances)
Compatibility	Works well with inflatables & close-range targets	Not recommended for inflatables or indoor use

Summary

If your focus is indoor training, recreational events, or inflatable games where accuracy at shorter distances and clean readings are critical, the **SRDL-36-KIT** is the perfect choice.

For open outdoor sports, long-distance vehicle speed tracking, and large venues, the **SRDL-38-KIT** offers superior range and visibility but is not suited for inflatable game applications.
